The Ivan Franko National University of Lviv is the oldest university in Ukraine, established in 1661. IFNUL as one of the leading national universities in training experts for education, research and industry in Ukraine, was renamed for the great national Ukrainian writer, poet, and statesman, Ivan Franko (1856-1916). It was awarded the highest, the Fourth level of accreditation by the Ministry of Education and Science of Ukraine in December 2003.

Today, IFNUL collaborates with a broad spectrum of universities from all over the world and one of its priorities is to strengthen the University's international profile. These international links have also supported the University's efforts to achieve high standards of excellence in joint international research projects, its participation in different university networks, and its active support for international student and academic staff mobility.

IFNUL has nineteen faculties offering applicants a broad spectrum of study fields in Bachelor's, Master's and Doctoral degree study programs in Ukrainian.

List of degrees offered at IFNUL:

<http://international.lnu.edu.ua/incoming-mobility/degree-studies/>

Evaluation and grading system

There are four ways in which a subject can be completed:

- awarding of a credit
- awarding of a graded credit
- passing an exam
- passing an exam after gaining a credit.

Examinations may be written, oral or combined. It depends on a subject.

Grading system

IFNUL uses the ECTS (European Credit Transfer System) grading scale for assessing student performance. The Ukrainian scale of grades conforms to the ECTS.

Total grade for a course			
ECTS grade	Points	Ukrainian evaluation	Ukrainian evaluation's pronunciation
A	90-100	excellent	[vidminno]
B	80-89	good	[dobre]
C	70-79		
D	61-69	satisfactorily / pass	[zadovilno]
E	51-60		
FX	31-50	unsatisfactorily / fail	[nezadovilno]
X	0-30		

It is important to get at least 51 points during the semester to pass an exam (credit). If a student fails to receive 51 points he/she has to repeat the exam (credit).

In most cases you can use your own phone/handset with a Ukrainian SIM-card but you have to be sure it is compatible with Ukrainian mobile phone frequencies.

You can get the prepaid cards at all kiosks that sells tobacco, candy or designated trading places.

Alternatively, you can go to a KyivStar (or other provider) store in city downtown and ask for a card, specifying which amount of money you would like to have on the card. If you do not spend a lot of time on the phone, 100 UAH should be

sufficient for a month of local calls.

Besides using a card, you can also put credit on your phone by using special touch-screen computers that can be found in many shops and grocery stores or pay online via official web-sites of mobile providers.
